(Tel: 868-1428)

June 24, 1969.

Mr Hugh Dougherty,
Stinson Beach,
California 94970.

Dear Hugh, Re: House Numbering in Stinson Beach

I have gone through the copy of the Assessor's lists, and inserted therein the numbers and streets of improved lots, and many of the unimproved lots which happen to fall in regular sequence. The following remarks are called for:-

Map Sheet 199-04. This sheet covers the lower end of the Panoramic Highway, which lacks any clear indication of numbers. Please request the County to provide them.

Roads Intersecting Twice. These are found as follows:-

Calle del Mar	and	Buena Vista Avenue
Calle del Mar	"	Lincoln Avenue
Buena Vista Avenue	"	Belvedere Avenue

The confusion which this has caused will be eliminated by using numbers, but the property owners should be warned. I regard re-naming as unnecessary.

State Highway No.1. In some sheets this is also named "Baulinas Ave." A decision should be made regarding the official designation.

Lot numbers shown on the large and small maps do not agree. For example, they run as follows:-

	Large Map	Small Maps
Parcel No.195-222-16 Andrews Elizabeth Torrey	No.994	No.3295
to	to	to
Parcel No.195-131-04 Ostrosky Peter & Violet	No.1575	No.3785

I have used the numbers on the small maps. This needs confirmation or alteration.

Puenta Rizal and Puenta del Mar. "PUENTA", as spelt on the map of the sub-division known as Stinson Beach Highlands, is not a correct Spanish word. Possible alternatives are:-

PUENTE	meaning	Bridge
PUERTA	"	Gateway
PUNTA	"	Point

I favor "PUNTA" - Point, but a decision is required.

Corner Lots. I have endeavored to number corner lots from the streets on which their entrances are situated.

Parcel No.195-111-09, Schwendig Ruth et al:- There is a letter from Mrs Schwendig expressing her dislike for the number "13", as shown on a form she received entitled "1969 Claim for Homeowners Property Tax Exemption". Map 195-11 indicates that the correct number of her parcel is No.15. This deals with her objection, and it remains for the County Assessor to bring his other records into line with his map.

Lots not numbered on the small maps. I have allocated numbers by interpolation. These need checking, and confirmation or correction by the County.

Checking Generally. I think it essential that my work be checked, as I found it easy to err. The checker could ink in what I have pencilled.

Circular Letter to the Property Owners. I request you to write this, and to get others to prepare and mail it, because I have many personal matters requiring my prior attention at the present time.

I observe that those who would benefit from numbering are all who have need to find a lot, for example:-

Fire Department	Parcel Delivery Services
Stinson Beach Water Company	Stores delivering here
Henry's Service	Friends of Occupants
Pacific Gas & Electric Co.	
Pacific Telephone Co.	and, eventually,
Sheriff	the Post Office.

I remember that the only stipulation we found regarding actual numbers to be used, was that the figures must be not less than 3 inches high, and be visible from the roadway.

Assessors Book and Maps. These accompany this letter.

Yours very truly,

R Brockhurst

26 February 1969

Read 4/23/69

Mr. Louis J. De Ghelder, Secretary
Stinson Beach Fire Protection District
P.O. Box 144
Stinson Beach, California 94970

Dear Mr. De Ghelder: re: Stinson Beach Street numbers

The Planning Department completed a street addressing program for Stinson Beach in 1967, and many of the numbers have already been assigned, especially in the Seadrift area.

Because of opposition by old-time residents to the requirement that they be assigned (and display) addresses, we have not forced the issue, We have, however, issued addresses to all new construction and some renovations. Even with these assignments, the numbers are forgotten or not displayed.

We have had an excellent working arrangement with the Tamalpais Valley Fire Protection District for the past 5 years in similar circumstances where they contact property owners during routine inspections and suggest they call the Planning Department giving the parcel number of their property, to which we will assign an address if its is clear what that address should be. (In certain instances, because of corner or double-frontage lots, driveways serving more than four parcels which should be named, and unknown points of access and structure location, we ask the applicant or Fire District to send along a sketch of the situation.)

We will be most happy to cooperate with you in this undertaking and should you like to see our parcel map books with the addressing scheme for your community, they are available for your inspection at Civic Center.

Very truly yours,

John C. Hau

February 21, 1969

Marin County Planning Department
Civic Center
San Rafael Calif

Gentlemen:

The matter of housee numbers for Stinson Beach has again been brought to the attention of the Board of Commissioners of this District.

In checking our files we find a copy of a letter written by your Planning Director under date of Oct. 19, 1962 addressed to thed Stinson Beach Post Office in which you advised you /were working toward the establishment of house numbering systems for Stinson Beach and Bolinas communities.

We are interested in learning whether or not this system was ever established.

As pointed out to the Commissioners of this District house numbers would be of great assistance to a person in reporting a fire.

Yours very truly

STINSON BEACH FIRE PROTECTIKN DISTRICT

Louis J. DeGhelder

Mr. P. W. Tibbetts
128 Throckmorton Avenue
Mill Valley California

Re: House Numbering
Stinson Beach area

Dear Mr. Tibbetts:

We understand from recent phone conversation that the Telephone Company is desirous of assigning house numbers to existing structures in the Stinson Beach/Bolinas Area and that the numbers be fixed to each structure.

It is also our understanding that the Telephone Company has offered to supply, at no cost to property owners, number plates.

This conforms to a request the Stinson Beach Fire Protection District recently received from our Volunteer Fire Department that steps be taken to assign and fix house numbers within the boundaries of the District to make it easier for our Fire Department to locate a fire in event of an alarm.

It is also our understanding that the Marin County Planning Department has assigned house numbers to existing structures and as new permits are issued new numbers are added.

It is our understanding that you contemplate holding a meeting in the near future, regarding the matter, and we would appreciate being notified when and where meeting will be held.

Yours very truly

Feature Lecture by Mrs. Lewis. received 10/20/62

Stinson Beach Post Office
Stinson Beach, California

Attention: Mrs. Zion

Dear Mrs. Zion:

We are working toward the establishment of house numbering systems for the Stinson Beach and Bolinas communities. At present, attention is being given to the general area of the Stinson Beach Highlands, the Robinson Tract and the Upton Tract. We plan to begin with 1,000 Shoreline Highway, progressing from its intersection with Panoramic Highway.

House numbers for Seadrift were assigned after the final subdivision maps had been recorded in the County Recorder's Office. Future subdivisions will also be numbered after the final maps are recorded.

You are invited to direct any questions or suggestions which you may have to the attention of Mr. Talley.

Very truly yours,

Dear Sirs:

I have sent your communication to Miss Keene who bought my home on Nov 17, 1969. She lives in Mill Valley - 256 E Strawberry Mill Valley. I am sure she will join the club if contacted. Also will be interested in any activities at the beach.

Thank you very much. I miss my cottage at the beach but it was so difficult for me to find help for repairs etc. The many years my family and our little ones were there are memories which I will never forget.

Sincerely,

(Mrs) Helen M Pirg

ZONING ADMINISTRATOR HEARING

OCTOBER 6, 1969

AGENDA

10:00 AM #846 — VARIANCE - BILLY JOE CROUCH
157-115-15

LOCATION: 309 Holly Avenue, fronting on the east side of Holly Avenue, approximately 250 feet south of its intersection with Mistletoe Avenue, Blackpoint.

PURPOSE: To allow the construction of a second story to a non-conforming structure which would continue the existing four (4) foot side yard setback where six feet is otherwise required.

10:30 AM #844 — VARIANCE - FRANK ROACH
51-202-14

LOCATION: 267 Princeton Avenue, fronting on the east side of Princeton Avenue, approximately 1,000 feet north and east of its intersection with Cleveland Avenue, Almonte.

PURPOSE: To allow the construction of a single family home on a legal non-conforming lot, which would reduce the required five (5) foot side yard setbacks to four (4) feet with eave line setbacks to three (3) feet.

11:00 AM #845 — VARIANCE - JOHN HUGHES
195-162-16

LOCATION: 15 Calle Del Onda, fronting on the east side of Calle Del Onda, approximately 250 feet south of its intersection with Highway #1, Stinson Beach.

PURPOSE: To allow construction of a dining room addition to an existing single family residence, which would extend an existing three (3) foot side yard setback on a legal, non-conforming lot.

By this letter we are undertaking to notify owners of improved land in Stinson Beach of their house numbers and to urge that they be displayed.

Our examination of county records indicates that you are the owner of Assessor's Parcels No.

195 111 07

on which there appear to be 1 dwelling units to which the following street addresses have been assigned:

29 Avenida Las Baulines

The house numbers you install should be at least three inches high and mounted so as to be clearly visible from the street.

Your cooperation in displaying house numbers will make it easier for our firemen and ambulance drivers, and Sheriff's deputies to find your home in case of emergency. Service calls by utility companies and appliance repairmen as well as deliveries generally will be facilitated.

No change in mailing addresses is contemplated.

Thank you,

Stinson Beach Volunteer Fire Department
Ira Switzer, Chief

Stinson Beach Progressive Club
Hugh Dougherty, President

EXPLANATORY NOTE FOR CONFUSING SITUATIONS

I.

A owns two houses, located side-by-side on the same street. Assuming two house numbers are given, which number goes on which house?

A should be guided as follows:

> Numbers on Shoreline Highway and most parallel streets increase in a generally northwesterly direction (toward Bolinas.)
>
> Numbers on streets running toward the beach, such as Calle Del Pinos or Alameda Patio, increase as one approaches the beach. An exception is Calle Del Mar, on which the numbers increase as one approaches the hills.

This exception is the rule for other streets which ascend the hills.

On a few streets, which change direction, the rules fail. If you are confused, please contact Jim Stevens at 868-1415 or Hugh Dougherty at 868-1823.

II.

B owns two houses on the same lot. One is located in front and the other is located at the rear. Assuming two house numbers are given, which goes on which house?

> If one were travelling along the street in the direction of increasing numbers, the lower number should be put on the house which one would normally appear to enter first, i. e., the order is determined by the order of the entrance ways.

III.

C owns one house, which has a separate basement apartment. Assuming two house numbers are given, which goes where?

> If one were travelling along the street in the direction of increasing numbers, the lower number should be put on whichever entrance way one comes on to first.

IV.

D owns a lot on which there appear to be two separate dwelling units, whether in a single structure or not. Two house numbers are given. D believes we are in error, in that there is only one dwelling unit on the property. What should he do?

> We make mistakes. If we have made one concerning D's property, he should advise us, promptly, by calling Jim Stevens or Hugh Dougherty, or by writing.
